

### OBJECTIVE

This is a high growth flexible global portfolio which invests across global asset classes: equities, fixed income, property and cash. It is aimed at long term investors with a time horizon longer than 7 years, with a high risk appetite who would like to see long term capital growth with offshore exposure. The portfolio is diversified across regions, currencies and sectors with the aim to generate real returns relative to global inflation. The funds used within the portfolio have all been comprehensively researched and rated by Fundhouse and are actively monitored. The portfolio combines both multi-asset and single asset class funds to provide flexibility and efficiency of management.
