

OBJECTIVE

This is a high growth flexible global portfolio which invests across global asset classes: equities, fixed income, property and cash. It is aimed at long term investors with a time horizon longer than 7 years, with a high risk appetite who would like to see long term capital growth with offshore exposure. The portfolio is diversified across regions, currencies and sectors with the aim to generate real returns relative to global inflation. The funds used within the portfolio have all been comprehensively researched and rated by Fundhouse and are actively monitored. The portfolio combines both multi-asset and single asset class funds to provide flexibility and efficiency of management.

This factsheet is not an advertisement, but is provided exclusively for information purposes and should not be regarded as an offer or solicitation to purchase, sell or otherwise deal with any particular investment. A model portfolio is not a unit trust, it is a collection of Collective Investment Scheme/Unit Trust funds held under a single account with an administrative FSP. Model portfolios are only available to clients of authorised FSPs. There are risks associated with the underlying investments and past performance is not necessarily an indication of future performance. Performance is not guaranteed and therefore an investor may not get back the initial amount invested. A model management fee will be charged by Fundhouse, in addition the underlying Collective Investment Schemes will levy their own charges. No commission or incentives may be paid to Fundhouse.
