- c. any arrangement between two or more product suppliers or any of their associates, which arrangement facilitates, supports or enhances a relationship between a provider or providers and a product supplier.

## PURPOSE

In terms of the General Code of Conduct a provider and a representative must avoid, and where this is not possible, mitigate any conflict of interest between the provider and a client or the representative and a client.

To adhere to this requirement, Sterling Invest (Pty) Ltd (*the FSP*) must ensure that adequate arrangements are in place for the management of conflicts of interest that may arise wholly or partially, in relation to the provision of any financial services to clients by the FSP, or any Representative of the FSP, as part of the financial services business of the FSP.

Sterling Invest (Pty) Ltd and its representatives are committed to acting within the best interests of our clients and to avoiding all conflicts of interest in relation to the provision of financial services. Where we are unable to avoid a conflict of interest, we will take all necessary precautions to ensure that any actual or potential conflict of interest is mitigated and adequately disclosed to our clients.

To ensure the continued demonstration of our commitment, management has adopted a conflict of interest management policy to provide for the effective management of any actual or potential conflicts of interest that may arise.

Sterling Invest supports a culture of integrity, transparency and accountability in line with regulatory expectations.

The conflict of interest management policy contains the following provisions:

- Mechanisms for the identification of conflicts of interest.
- Measures for the avoidance of conflicts of interest, and where avoidance is not possible, the reasons therefore and the measures for the mitigation of such conflicts of interest.
- Measures for the disclosure of conflicts of interest.
- The processes, procedures and internal controls to facilitate compliance with the policy.
- Consequences of non-compliance with the policy by the provider's employees and representatives.
- The basis on which a representative will qualify for a financial interest.
- A list of all the FSP's associates.
- A list of all parties in which the FSP holds an ownership interest.
- A list of all third parties that hold an ownership interest in the FSP.

## IDENTIFICATION OF A CONFLICT OF INTEREST

In terms of Section 3A(2)(b)(i)(aa) of the General Code of Conduct, a conflict of interest management policy must provide mechanisms for the identification of conflicts of interest.

The governing body of the FSP conducts annual reviews on all outsourcing arrangements and service-level agreements with third parties, to assess whether these relationships create any operational dependency that could compromise objective performance, fair treatment of clients, or the integrity of financial service delivery.

Due to the intangible nature of an actual or potential conflict of interest, any such manifestation will only be identified once the subjective realisation of its presence has been acknowledged by an individual. The legal duty to

avoid whenever possible an actual or potential conflict of interest is therefore dependent on whether a particular individual largely believes or perceives a conflict of interest to begin with.

It is for this reason that Key Individuals must apply honest and sage judgment whenever confronted with a situation that may give rise to an actual or potential conflict of interest.

## **REPRESENTATIVES**

Throughout the process of rendering a financial service to a client, a Representative must apply his or her mind to answering the following questions:

- "Is there any situation that exists that influences the objective performance of my obligations to my client"?
- "Is there any situation that exists that prevents me from rendering an unbiased and fair financial service to my client"?
- "Is there any situation that exists that prevents me from acting in the interest of my client"?

If the answer to any one of these questions is "no" - No further action would be required

If the answer to any one of these questions is "yes" - The following two questions must also be answered:

- "Is the situation caused by an actual or potential relationship with a 3rd party"? (see definition of 3rd party)
- "Is the situation caused by an actual or potential financial or ownership interest"? (see definition of financial and ownership interest)

If the answer to any one of these questions is "yes" - An actual or potential conflict of interest has been identified

## **KEY INDIVIDUALS**

Throughout the process of rendering a financial service to a client, a Key Individual must apply his or her mind to answering the following questions:

- "Is there any situation that exists that influences the objective performance of the representative's obligations to his or her client"?
- "Is there any situation that exists that prevents the representative from rendering an unbiased and fair financial service to his or her client"?
- "Is there any situation that exists that prevents my representative from acting in the interest of his or her client"?

If the answer to any one of these questions is "no" - No further action would be required

If the answer to any one of these questions is "yes" - The following two questions must also be answered:

- "Is the situation caused by an actual or potential relationship of the FSP with a 3rd party"? (see definition of 3rd party)
- "Is the situation caused by an actual or potential financial or ownership interest of the FSP"? (see definition of financial and ownership interest)

If the answer to any one of these questions is "yes" - An actual or potential conflict of interest has been identified.

## **GUIDANCE NOTES ON "OBJECTIVE PERFORMANCE", "UNBIASED AND FAIR" & "FINANCIAL INTEREST"**

The definition of a conflict of interest incorporates the following terminology:

- influence the "objective performance" of his, her or its obligations to the client.
- prevent a provider or representative from rendering an "unbiased and fair financial service to that client.
- including but not limited to a "financial interest".

It is generally accepted that the word "objective" refers to a situation where an individual's personal feelings or opinions are completely removed from the equation. The "objective performance" of an FSP's obligations therefore implies a situation where financial services are rendered without the influence of unrelated feelings or opinions. In the same vein, "unrelated feelings and opinions" denote separate, external persuasions or motivations where no causal link or nexus can be found between the particular feeling or opinion and the financial service that is rendered within the best interests of the client. Put differently, if an unrelated feeling or opinion of an individual, influences the performance of such said individual's obligations, it cannot be said to be an objective performance of that individual's obligation.

The word "bias" indicates an inclination or prejudice in favour of a particular person or viewpoint. Similarly, the word "fair" indicates a situation of just circumstances or treating people equally.

Unbiased financial services therefore imply financial services that do not lend itself to a particular preference towards a person or viewpoint, if an accompanying, reasonable justification for such preference cannot be found. Consequently, all unbiased financial services must necessarily comprise services that are capable of being motivated by readily discernible, logical reasons and explanations. "Fair" financial services on the other hand imply a situation where the same conclusion or outcome is consistently reached given the same exact set of circumstances. In other words, financial services cannot be said to be fair if a pattern of favouritism begins to present itself vis-à-vis a particular person or service. Any unexpected inconsistencies towards a group of clients and/or a particular client must therefore again, have to be motivated by logical reasons and explanations.

Subject to section 3A(1)(c) of the General Code of Conduct, the FSP or its representatives may only receive or offer the following "financial interest" from or to a "third party":

- **Commissions as authorised** under the Long-term Insurance Act, Short-term Insurance Act and the Medical Schemes Act.
- **Fees as authorised** under the Long-term Insurance Act, Short-term Insurance Act and the Medical Schemes Act if those fees are reasonably commensurate to a service being rendered.
- **Fees for the rendering of financial services** in respect of which the abovementioned commissions and fees are not paid, provided that the client agreed to such fees in writing and may be stopped at the discretion of the client.
- **Fees or remuneration for the rendering of a service** to a third party, which fees or remuneration are reasonably commensurate to the service being rendered.
- **An immaterial financial interest** (i.e. a financial interest with a determinable monetary value, the aggregate of which does not exceed R1000 in any calendar year from the same third party in that calendar year received by – a provider who is a sole proprietor, or a representative for that representative's direct benefit, or a provider who for its benefit or that of some or all of its representatives, aggregates the immaterial financial interest paid to its representatives).

- **A financial interest** not referred to above, for which a consideration, fair value or remuneration that is reasonably commensurate to the value of the financial interest, is paid by that provider or representative at the time of receipt thereof.

A provider may not offer any financial interest to a representative of that provider for:

- **Giving preference to the quantity of business** secured for the provider to the exclusion of the quality of the service rendered to clients.
- **Giving preference to a specific product supplier**, where a representative may recommend more than one product supplier to a client.
- **Giving preference to a specific product of a product supplier**, where a representative may recommend more than one product of that product supplier to a client.

## MECHANISMS FOR IDENTIFICATION OF CONFLICTS OF INTEREST

The mechanisms implemented to identify actual or potential conflicts of interest for the FSP are:

- The governing body of the FSP conducts annual reviews on all contracts held with 3rd parties and re-examines whether this relationship influences the FSP's objective performance towards its clients.
- The governing body of the FSP conducts annual reviews on all contracts held with 3rd parties and re-examines whether this relationship influences the FSP's ability to render fair and unbiased financial services towards its clients.
- The governing body of the FSP conducts annual reviews on all contracts held with 3rd parties and re-examines whether this relationship influences the FSP's ability to act in the interest of the client.
- The governing body of the FSP conducts annual reviews on all relationships held with 3rd parties, where an ownership interest is present, and re-examines whether this relationship influences the FSP's objective performance towards clients.
- The governing body of the FSP conducts annual reviews on all relationships held with 3rd parties where an ownership interest is present and re-examines whether this relationship influences the FSP's ability to render fair and unbiased financial services towards its clients.
- Declarations are signed by all Key Individuals confirming the presence or absence of any actual or potential conflict of interest quarterly.
- A list of all the FSP's associates is attached as an annexure hereto and is updated annually.
- A list of all parties in which the FSP holds an ownership interest is attached as an annexure hereto and is updated annually.
- A list of all third parties that hold an ownership interest in the FSP is attached as an annexure hereto and is updated annually.
- All gifts received from 3rd parties, with an estimated value of R500 or more, are recorded in the FSP's gift register which is kept on the FSP's compliance file.
- All employees must disclose in writing to the governing body of the FSP on an ongoing basis, any conflicts of interest that they may become aware of.
- All records associated with the identification of an actual or potential conflict of interest are kept on the compliance file which is available for inspection purposes.

The mechanisms implemented to identify actual or potential conflicts of interest for Representatives are:

- Declarations are signed by all Representatives confirming the presence or absence of any actual or potential conflict of interest quarterly.
- All Representatives must disclose in writing to the governing body of the FSP on an ongoing basis, any conflicts of interest that they may become aware of.

## AVOIDANCE AND MITIGATION

In terms of Section 3A(2)(b)(i)(bb) of the General Code of Conduct, a conflict of interest management policy must provide measures for the avoidance of conflicts of interest, and where avoidance is not possible, the reasons therefore and the measures for the mitigation of such conflicts of interest.

Once an actual or potential conflict of interest has been identified the following measures will be followed to determine whether the conflict of interest is avoidable:

- The governing body of the FSP will convene and review the actual or potential conflict of interest in an open and honest forum:
- All information surrounding the actual or potential conflict of interest must be disclosed to all interested parties.
- All information surrounding the actual or potential conflict of interest must be disclosed to the FSP's Compliance Officer.
- The following consequences must be considered during the review process:
  - The consequences of both avoidance and unavailability as well as the subsequent negative impact it will have on clients.
  - The consequences of both avoidance and unavailability as well as the subsequent negative impact it will have on the integrity of the financial services industry.
  - The consequences of both avoidance and unavailability as well as the subsequent negative impact it will have on the FSP.
- The governing body of the FSP must apply its mind to whether the FSP can obtain a more advantageous transaction, contract or arrangement with reasonable efforts from a person or entity that would not give rise to a conflict of interest.
- If a more advantageous transaction, contract or other arrangement is not reasonably attainable under circumstances that would not give rise to a conflict of interest, the governing body of the FSP shall determine by a majority vote whether the transaction, contract or arrangement is in the best interest of the FSP and any affected client/s and accordingly make its decision as to whether to enter into the transaction, contract or arrangement in conformity with such determination.

If the governing body of the FSP has determined that the actual or potential conflict of interest is **avoidable**, the following processes must be adhered to:

- The governing body must approve, by a majority vote, the removal of the underlying cause of the actual or potential conflict of interest.
- The underlying cause of the actual or potential conflict of interest must be removed as soon as reasonably possible.
- Any negative impact on clients owing to the removal of the actual or potential conflict of interest must be kept to a minimum.

- The reason(s) why the actual or potential conflict of interest was determined to be avoidable must be recorded.
- All determinations and interventions as it pertains to the avoidance of the conflict of interest must be documented and kept in the compliance file.
- Similar situations that give rise to actual or potential conflicts of interest must be avoided in the future.

If the governing body of the FSP has determined that the actual or potential conflict of interest is unavoidable, the following mitigation processes must be adhered to:

- The governing body of the FSP will convene and review an appropriate mitigation process given the unavoidability of the particular set of circumstances.
- The reason(s) why the actual or potential conflict of interest is considered to be unavoidable must be recorded and kept on the compliance file.
- The FSP's compliance officer must be made aware of the conflict's unavoidability as well as the reasons for such unavoidability.
- The mitigation process will include the adoption of the following measures:
- The actual or potential conflict of interest must remain only for as long as it is absolutely necessary given the unavoidability of the actual or potential conflict of interest.
- Alternative arrangements to a proposed transaction, contract or arrangement that is the subject of the conflict of interest must be investigated on a continuous basis.
- The rendering of financial services must at all times be conducted in the best interest of the client (as far as this is possible, given the unavoidability of the actual or potential conflict of interest).
- All representatives must be made aware of the actual or potential conflict of interest, and the reasons for its unavoidability.
- Full disclosure of the actual or potential conflict of interest must be made to the client at the earliest reasonable opportunity.
- Full disclosure of the actual or potential conflict of interest must be made to the Financial Services Conduct Authority in the FSP's compliance report.

## DISCLOSURE OF CONFLICTS OF INTEREST

In terms of Section 3A(2)(b)(i)(cc) of the General Code of Conduct, a conflict of interest management policy must provide measures for the disclosure of conflicts of interest.

The FSP must make appropriate disclosures to third parties including clients, as part of its arrangement to manage conflicts of interest. It is acknowledged that while disclosure alone will often not be enough, disclosure must be treated as an integral part of managing conflicts of interest. The FSP is therefore committed to ensuring that clients are adequately informed about any conflicts of interest that may affect the provision of financial services to them.

It is furthermore acknowledged that, whilst a clearly identified conflict of interest will not necessarily cause the provision of financial advice to a client to be significantly compromised, it should nonetheless be disclosed to the client. The client must be afforded the opportunity to decide for him/herself whether the conflict of interest is significant and to what extent he/she will rely on the advice or intermediary service.

On the discovery and identification of a conflict of interest, and the subsequent determination of its unavoidability, the following disclosure processes will be implemented on behalf of the FSP:

- Full disclosure of the actual or potential conflict of interest must be made to all Key Individuals of the FSP.
- Full disclosure of the actual or potential conflict of interest must be made to all representatives of the FSP.
- Full disclosure of the actual or potential conflict of interest must be made to the compliance officer of the FSP.

On the discovery and identification of a conflict of interest, and the subsequent determination of its unavoidability, the following disclosure processes will be implemented on behalf of the client:

- Full disclosure of the actual or potential must be made to the client at the earliest reasonable opportunity.
- The disclosure must be made before or when the financial service is provided, but in any case at a time that allows the client a reasonable time to assess its effect.
- The disclosure must be formulated in such a way as to be considered prominent, specific and meaningful to the client.
- The disclosure must be made in such a way as to allow the client to make an informed decision as to whether to continue with the financial services.
- The disclosure must indicate the nature of the relationship or arrangement with a 3rd party that gives rise to the conflict of interest.
- The disclosure must indicate whether the conflict of interest is based on a financial and/or ownership interest.
- The disclosure must indicate any ownership interest held with a product supplier in accordance with section 4(1)(d) of the General Code of Conduct.
- Where the disclosure is provided orally, the disclosure must be confirmed in writing within a reasonable time of such said disclosure.
- The written disclosure must be communicated by hardcopy or any appropriate electronic medium that is accurately and readily reducible to written or printed form.
- The written confirmation of the disclosure must be provided by means of standard forms or format, in a clear and readable print size, spacing and format.
- The reasons for the conflict of interest's unavoidability must be made available to the client on request.
- The conflict of interest management policy must be made available to the client on request.

Sterling Invest (Pty) Ltd is committed to ethical and lawful data sharing practices in all client interactions. Where a conflict of interest involves data exchange—whether with third parties or through internal systems—the FSP ensures that such sharing is conducted transparently, disclosed when relevant, and strictly in line with prevailing data protection regulations. Protecting client privacy remains a core priority, and all data handling processes are governed by confidentiality protocols and secure information management practices.

## FACILITATION OF COMPLIANCE WITH THE POLICY

In terms of Section 3A(2)(b)(i)(dd) of the General Code of Conduct a conflict of interest management policy must provide processes, procedures and internal controls to facilitate compliance with the policy.

The processes associated with the implementation and continued compliance of the conflict of interest management policy must be performed by the governing body of the FSP as well as the appointed Compliance Officer.

Internal controls and processes include the following:

- The governing body of the FSP will ensure that the policy is kept in the compliance file, and the appointed Compliance Officer will confirm its adoption as part of the FSP's periodic compliance monitoring report.
- The governing body of the FSP will ensure that all relevant staff sign the policy, and the appointed Compliance Officer will confirm such signature as part of the FSP's periodic compliance monitoring report.
- The governing body of the FSP will ensure that the annexure section of this policy is completed, and the appointed Compliance Officer will confirm such completion as part of the FSP's periodic compliance monitoring report.
- The governing body of the FSP will ensure the annual review of all contracts held with 3rd parties, and the appointed Compliance Officer will confirm such review as part of the FSP's periodic compliance monitoring report.
- The governing body of the FSP will ensure that all declarations confirming the presence or absence of any actual or potential conflict of interests are signed on a quarterly basis, and the appointed Compliance Officer will confirm such declarations as part of the FSP's periodic compliance monitoring report.
- The governing body of the FSP will ensure that a list of all the FSP's associates is attached hereto and updated annually. The appointed Compliance Officer will confirm such an update as part of the FSP's periodic compliance monitoring report.
- The governing body of the FSP will ensure that a list of all the parties in which the FSP holds an ownership interest is attached hereto and updated annually. The appointed Compliance Officer will confirm such an update as part of the FSP's periodic compliance monitoring report.
- The governing body of the FSP will ensure that a list of all third parties that hold an ownership interest in the FSP is attached hereto and updated annually. The appointed Compliance Officer will confirm such an update as part of the FSP's periodic compliance monitoring report.
- The governing body of the FSP will ensure that all gifts received from 3rd parties, with an estimated value of R500 or more are recorded in the FSP's gift register. The appointed Compliance Officer will confirm that such a register is in place as part of the FSP's periodic compliance monitoring report.
- The governing body of the FSP will ensure that all records associated with the identification of actual or potential conflicts of interest are kept in the compliance file. The appointed Compliance Officer will confirm such records as part of the FSP's periodic compliance monitoring report.
- The governing body of the FSP will ensure that the proper disclosure requirements are communicated to the client. The appointed Compliance Officer will confirm such disclosures as part of the FSP's periodic compliance monitoring report.

Sterling Invest (Pty) Ltd recognizes the evolving role of emerging technologies—including artificial intelligence (AI), machine learning (ML), and automated decision-making systems—in shaping the delivery of financial services. While these tools may offer operational efficiencies and enhanced service capabilities, the FSP is committed to ensuring that any deployment of such technologies is accompanied by rigorous ethical oversight, transparency, and safeguards aligned with FSCA principles. Where applicable, Sterling Invest will conduct risk assessments and maintain governance structures to prevent bias, protect client interests, and ensure accountability in all technology-driven processes.

The compliance file maintained by the FSP shall be kept in a secure digital format with access restricted to authorized personnel only. All records—including declarations, disclosures, and contract reviews—must be stored in systems that ensure data integrity, encryption, and traceability. Access to these records will be monitored through auditable logs, enabling transparent oversight and facilitating swift retrieval during internal reviews or regulatory inspections.

## The policy will be:

- Overseen by the governing body of the FSP who carry the responsibility for the implementation, reviewing and updating of the policy's associated processes.
- Reviewed at least annually, and where necessary, updated to ensure that the arrangements remain adequate to identify, assess, evaluate and successfully control conflicts of interest.
- Regularly reviewed by the appointed Compliance Officer, and where necessary, updated to ensure that the arrangements remain adequate to identify, assess, evaluate and successfully control conflicts of interest.
- The Annexure section of this policy must be reviewed, updated and signed by the nominated Key Individual on an annual basis.
- The Annexure section of this policy must be reviewed, updated and signed by the appointed Compliance Officer on an annual basis.
- Reviews of this policy shall take into account the FSCA's published Regulation Plan as an external benchmark to ensure continued alignment with current and anticipated regulatory focus areas.

In addition to internal processes and control measures, the Conflict of Interest Management Policy will be **reviewed annually** against all applicable FSCA-issued Guidance Notices, Interpretation Rulings, and emerging legislative developments. This ensures that Sterling Invest (Pty) Ltd remains aligned with evolving regulatory standards and maintains a proactive compliance posture across all financial service activities.

## CONSEQUENCES OF NON-COMPLIANCE

In terms of Section 3A(2)(b)(i)(ee) of the General Code of Conduct a conflict of interest management policy must provide for the consequences of non-compliance with the policy by the FSP's employees and representatives.

If there is reason to believe that an employee or a representative has failed to disclose actual or possible conflicts of interest, the FSP's governing body shall afford that person the opportunity to explain the alleged failure to disclose.

If after hearing the response of the employee or representative and making such further enquiries as may be warranted in the circumstances, and where the governing body of the FSP determines that the employee or representative has in fact failed to disclose an actual or possible conflict of interest, it shall take appropriate disciplinary and corrective action.

To support proactive compliance, all Representatives and Key Individuals shall undergo periodic training focused on identifying and managing evolving types of conflicts of interest, including those arising from emerging technologies, ethical considerations, and cultural influences. Failure to complete required training may be treated as a compliance breach and addressed accordingly.
